INTERIM FINANCIAL REPORT
FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2015
(The figures have not been audited)

**PART B – ADDITIONAL INFORMATION REQUIRED BY THE
LISTING REQUIREMENTS OF BURSA MALAYSIA**

B1. Review of performance

For the period ended 30 September 2015, the Group recorded a revenue of RM1.24 billion, 7.7% increase as compared to the RM1.15 billion reported in the corresponding period last year. The higher revenue was a result of the increase in gross premiums and contributions by the Company's reinsurance and takaful subsidiaries respectively.

The Group reported a net loss of RM18.5 million for the current period as compared to a net profit of RM70.8 million in the corresponding period last year. This was mainly attributable to the Group's reinsurance business as a result of several large losses reported during the period. The results were also affected by the weakening of Ringgit against other major currencies which have increased the provision for overseas claim liabilities.

The Group's investment income have also declined in tandem with the weak local market which saw the FBM KLCI drop by 11.5% for the period. Contributing factors to the weak market were broad-based. On the external front, investors were worried about the economic developments in China, United States and Eurozone. Meanwhile, locally there were lingering concerns on the weakened Ringgit, low crude oil and palm oil prices.

Investment holding

The revenue for the period ended 30 September 2015 of RM116.4 million was higher by RM37.7 million or 47.9% as compared to RM78.7 million reported in the corresponding period last year.

There was a higher net profit reported of RM89.1 million as compared to RM48.7 million in the corresponding period last year.

Reinsurance business

The revenue for reinsurance business for the period ended 30 September 2015 increased by 7.8% from RM683.0 million to RM736.5 million. The increase was mainly due to the higher gross premiums from international business.

The reinsurance business reported a net loss of RM28.0 million for the current period as compared to a net profit of RM83.5 million in the corresponding period last year. This was mainly due to several large losses, including the Tianjin Port Explosions, reported during the period and the increase in provision for overseas claim liabilities following the weakening of Ringgit Malaysia against other major currencies.

Takaful business

The revenue for takaful business for the period ended 30 September 2015 increased by 9.2% from RM446.4 million to RM487.6 million. This was mainly due to the increase in gross contributions of the family and general takaful businesses.

The net profit for the period ended 30 September 2015 was lower by 13.1% from RM4.6 million to RM4.0 million mainly due to the higher increase in provision for actuarial liabilities.

Retakaful business

The revenue for retakaful business for the period ended 30 September 2015 was lower by 53.6% from RM36.6 million to RM17.0 million, consistent with the efforts to consolidate its business portfolio.

The retakaful business recorded a profit of RM16.4 million in the current period as compared to a loss of RM5.1 million in the corresponding period last year mainly due to the release in claim liabilities and actuarial reserves of the general and family retakaful businesses.

B2. Review of current quarter profitability against immediate preceding quarter

The Group recorded a net loss of RM56.5 million in the current quarter as compared to a net profit of RM38.0 million in the preceding quarter mainly due to lower investment income across the Group and several large losses reported during the period which affected the Company's reinsurance subsidiary.

B3. Current year prospects

The Group's profit for the financial year ending 31 March 2016 is not expected to outperform the previous financial year's results.

B4. Explanatory note for variance from profit forecast

There was no profit forecast issued by the Group during the financial period ended 30 September 2015.

B5. Taxation

The effective tax rate for the 6 months period ended 30 September 2015 was higher than the statutory tax rate of 24% principally due to the net profit of the Company's retakaful subsidiary in which no tax expenses were being recognised due to the business losses carried forward. This was also affected by the capital expenditure incurred by the shareholder's fund of the takaful subsidiary in which no capital allowance can be claimed.

The effective tax rate for the 6 months period ended 30 September 2014 was higher than the statutory tax rate of 25% principally due to the capital expenditure incurred by the shareholder's fund of the takaful subsidiary in which no capital allowance can be claimed.

B6. Status of corporate proposals

The Company, in the previous quarter, had announced that the Company's reinsurance subsidiary, Malaysian Re, had been granted an approval from Bank Negara Malaysia, vide its letter dated 16 April 2015, to conduct General and Family retakaful business under Section 10 of the Islamic Financial Services Act 2013 (IFSA) via the establishment of a retakaful division. Following this, the MNRB Group plans to undertake an internal restructuring exercise for its retakaful business, the details of which will be announced at a later date.

There was no other corporate proposal announced but not completed as at the date of this announcement.
